

**1. and 2. APRIL 2009, JASNA SLOVAKIA**

Thirst day Weather was cloudy sometimes fog. But it was still possible to compete. Hard snow conditions, after big avalanche on slope was very hard terrain. Temperature over 0.. So snow was soft and wet. Nice ride had Fabien Guenot with nice flips, but in hard conditions he lost skis, when jumped difficult rock and was NS. Michal Osko from SVK made nice run. Lot of competitors lost skis and was NS.

Plan for next day was Semifinal and afternoon final run. Beautiful sun weather. Semifinal start was postponed from 9.30 to 10.30, because snow was after night freezing hard like rock. After sun start shine to snow, it starts melt, but in shadow was still hard. Hard snow plus no flat terrain after avalanche made very difficult terrain. Competitors had respect from terrain and it was good, because bad fall could be danger. Very nice ride had Stephan Hausl, thirst day ski winner, but after jumping nice rock he had problem with landing on terrible snow and lost skis = NS. The same was with ski girl winner from thirst day Melanie martinet, after fall she was long sliding on hard snow, lost skis and was NS. very nice ride made Eva Walkner and won semifinal. We canceled final run which should be afternoon, after meeting organizers, judges with riders, because conditions was very danger.

Despite this everybody had nice competition with a lot of fun. We hope next year will be perfect snow conditions and we meet again in Jasna.

**FINAL RESULTS**
