

## The first cabins have arrived at Jasná...

30.10.2009 Demänovská Dolina

*The investor company Webis s.r.o confirmed that on Friday 30 October 2009 the first new cabins were delivered to the Jasná Nízke Tatry resort.*

The project is gradually becoming a reality. As expected, apart from supporting pillars of the new cableway, the tunnel, or the new boarding station, the first cableway cabins were delivered by a truck to the Jasná Nízke Tatry resort. The first 7 cabins still remain in the truck, however, they are going to extend the offer of the top skiing resort and enhance the transportation capacity presently. Detailed information on the constructing works, the loading tests and the launch date will be provided on continual basis.

*A cabin in the truck...*

In the area of Otupné – Brhliská a **detachable cabin cableway for 8 passengers** will start to operate. The cableway construction works began in May. When compared to its predecessor, the cableway's hourly capacity will be doubled to 2,400 persons. The new cableway is unique as its colour scheme of orange tinted windows is the only one in the world so far. At the same time a new, extended piste of easy category (marked blue), which will be made wider in the upper part, is being built. Along the piste a new snowing system comprising 35 snowing canons will be built. The resort has launched the popular ski pass advance booking and the advantageous residence packets sales campaign offering **30% discounts**.

*According the investor's statement, the works are running in accordance with the schedule and in the new winter season the skiers' and snowboarders' paradise will be enriched in a new trendy cabin cableway carrying 8 persons.*
